Abstract not available for JP8503468T

Abstract of correspondent: **US5776456**

Disclosed herein are therapeutic treatment protocols designed for the treatment of B cell lymphoma.

These protocols are based upon therapeutic strategies which include the use of administration of immunologically active mouse/human chimeric anti-CD20 antibodies, radiolabeled anti-CD20 antibodies, and cooperative strategies comprising the use of chimeric anti-CD20 antibodies and radiolabeled anti-CD20 antibodies.
